The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor does any combination thereof fairly suggest a pusher sled having opposite side flanges for locking engagement with opposite side edge portions of the base member as recited in independent claims 1 and 8; an element accommodating movement of the pull strip in a rearward direction without corresponding rearward movement of the pusher sled as recited in section (f) of independent claim 4; a pull strip member supported on the base member and guided thereon for longitudinal sliding movement separate from the pusher sled as recited in section © of independent claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
